

RENAULT Espace IV since 2002

Engine diesel

A/C control: automatic

Localization of the components

B25	Fusesplate engine compartment
C13	Condenser
C15	Evaporator
C2	High pressure drain/refill end
C20	A/C computer
C26	Electromagnetic sluice gate of the air recycling
C27	Impulse shock absorber
C29	Temperature sensor of the evaporator
C3	A/C compressor
C4	Filter tank
C6	Pressure reducer - gauged opening
C7	Pressure controller
H5	Motoventilator of the engine coolant circuit
	High pressure drain/refill end

20083

WARNING:

The gas refill end-fitting of the low pressure circuit is equipped with an high pressure end-fitting; it is necessary to reverse the end-fittings on the refill equipment.

Cooling gas

Quantity (grams).....	1000±35 g
SP-10 PAG engine family F9Q comp Harrison Engine diesel.....	200±10 ml
SP-10 PAG engine family G9T comp Harrison Engine diesel.....	220±10 ml

Compressor oil

SP-10 PAG engine family F9Q comp Harrison Engine diesel.....	200±10 ml
SP-10 PAG engine family G9T comp Harrison Engine diesel.....	220±10 ml
